QUEER BREW MADE CUSTOMERS DRUNK

Potion Prepared By Jesse
Cole Fascinating Says
Witness

HELD FOR GRAND JURY

Police Exhibit to Court Phosphorus
Gathered at Home of Amateur
Brewer of Intoxicants.

A concoction brewed by Jesse Cole, colored, who lives in Delaney's Court, made those who partook of it drunk and was fascinating was the testimony given by a witness at a special session of the police court last night when Cole was arraigned.

The accused was held for the action of the grand jury by Justice Thompson after all of the testimony had been heard.

Exhibits including denatured alcohol, kettles, broilers, fruit syrup, pans and other articles were spread before the court as exhibits in the case.

There was also one bottle, supposed to hold a quart, containing a fluid substance the color of catsup. This it was testified was the concoction in crude form. Another jug it testified contained orange juice, lemon, vanilla extract, fruit syrup, and the police were at a loss to give this concoction a name.

Two witnesses then were called by the police. They had heard "something" might be obtained at Cole's place and went there for that purpose. Cole, however, told them he had nothing, but they hung around in hopes that they might obtain some of the brew which was then on the stove according to the police, and which it was testified Cole sold for fifty cents a half pint.

A housekeeper for Cole told the court that Cole had been engaged in the manufacture of the concoction for several weeks, and Chief Goods, Police Sergeant Wilkinson and Special Officer and Smith testified about the raid.

The accused was represented by Attorney Robinson Moncre. His client made no statement and the court held the accused for the grand jury on a charge of "manufacturing intoxicants in the city." A large throng of spectators were present at the hearing.

NEGRO PROPAGANDA

Numerous complaints are being made to the Postoffice Department against various negro publications that are alleged to be inciting race hatred, it was learned today.

Officials of the department pointed out that in a measure the department's hands were tied in forbidding the mails to these publications, because of the lack of an adequate law covering the subject.

Several bills bearing on the subject and looking to an amendment of the present law covering news matter of a revolutionary character are now before Congress, but no final action has yet been taken on any of them, officials of the department said.

It is the belief of officials that I. W. W. funds are being used in the negro propaganda.

DENIES HIS STORY

Butler Who is Accused of Sending
Bomb is Trying to Shield Him-
self, Mrs. Wanamaker
Declares

New York, Oct. 8.—Mrs. Rodman Wanamaker and Mary O'Brien, her maid, were summoned yesterday before the grand jury to testify in the case of Ernest Kurth, accused of sending a bomb through the mails to the Wanamaker home in Tuxedo Park, Kurth, who the police say admits having sent the bomb, is quoted as saying that it was meant for the maid whom he blames for his dismissal as butler from the Wanamaker household.

On leaving the grand jury room Mrs. Wanamaker said:
"When my former butler says he intended the bomb he sent me for my maid, Mary O'Brien, he simply is trying to shield himself behind her."

Mrs. Wanamaker denied that the butler was discharged because of complaint made by the maid. She said he resigned because she refused to raise his wages.

He addressed the package to Mrs. Wanamaker.

feat Into Victory By Consist-
ent Bating.

Redland Field, Cincinnati, Oct. 8.—The Chicago Americans won the sixth game of the world series here yesterday, making a great uphill fight and annexing it in a tenth-inning rally by a score of 5 to 4. Kerr pitched the full game despite being hit hard, for his team mates also were in a hitting mood.

A timely hit brought this man home and in the tenth a double right off the reel and a single shortly after enabled the American Leaguers to put across the winning run.

He insisted on being informed as to what was being accomplished.

DANGEROUS POTIONS

Statistics announced by police court officials in different sections of the country show a heavy increase in drunkenness cases for the month of September. It is said that the vast majority of such cases result from wood alcohol concoctions, although cologne, Jamaica ginger, bay rum, and horse liniment have figured in some cases.

The arraignment of a negro in the Police Court of this city last night to answer the charge of manufacturing and selling intoxicants brought many spectators to the court room. The paraphernalia of this "still" was especially interesting. Bottles containing wood alcohol, soda water syrup, etc., were exhibited, and those present whose wont it is to indulge in stimulants during this arid period had object lessons placed before them which they should not forget.

One man who had been taken in custody Monday for being drunk testified that he was one of the man's customers, and the deception he purchased had the kick in it

necessary to make him drunk—very drunk.

On several occasions recently it has been noticed that parties brought to the station house in a drunken condition have remained in that state many hours beyond the time ordinarily required to recuperate from a debauch.

It is known that liquids manufactured by amateur distillers and sold as intoxicants are exceedingly dangerous. Apart from the disturbances caused the stomach, such potions tend to produce total blindness and paralysis, while sudden deaths have been attributed to the use of these dangerous potions.

JEFFERSON'S FAITH

It is a favorite device of the opponents of the peace treaty to appeal to the examples of the long-departed statesmen of another day—to Washington, Jefferson, Jackson, Lincoln, etc., and to urge that there should be no departure from their lines of action, no matter how changed the circumstances.

The Philadelphia Record says: "It is a bit of pure claptrap, and should deceive no one, for the slightest acquaintance with American history should show every intelligent person that these great men were the very first to make innovations when the national interests required them. Jefferson's purchase of Louisiana from France, which was in direct contradiction of theories long advanced by him, is a striking case in point."

Something over 100 years ago the opinion of Jefferson was sought regarding a matter concerning which it was contended that there should be no deviation from the spirit of 1776. In reply the Sage of Monticello wrote these words of admirable common sense, which are perfectly applicable to the situation at Washington today:

"I knew that age well; I belonged

to it and labored with it. It de-

served well of its country. It was very like the present, but without the experience of the present; and 40 years of experience in government is worth a century in book-reading; and this they would say themselves, were they to rise from the dead—I know—that laws and institutions must go hand in hand with the progress of the human mind. As that becomes more developed, more enlightened, as new discoveries are made, new truths disclosed, and manners and opinions change with the change of circumstance, institutions must advance also and keep pace with the times. We might as well require a man to wear still the coat which fitted him when a boy, as civilized society to remain ever under the regimen of their ancestors. It is this preposterous idea which has recently deluged Europe with blood. Let us follow no such examples, nor weakly believe that one generation is not as capable as another of taking care of itself."

These words, written in 1816, are respectfully commended to Senator Kress, George Wharton Pepper and similar timid souls who profess to see dreadful terrors in the peace and the League of Nations. They lack the robust faith in America of the early fathers of the republic.

THREATENS CONGRESS

When Samuel Gompers threatened the American Congress and the sovereignty of this country by saying that if a certain section of the proposed bill was passed "the section would simply create lawbreakers; if this section is passed I would have no more hesitancy in participating in a strike than I would now," he placed himself at the head of a revolutionary gang which has dared to threaten Congress and say that if a law not satisfactory to him and his associates were passed

he would not hesitate to violate it. The Manufacturers' Record says: "That is exactly what is the blatant threat of a revolutionist, and surely the Government of the United States cannot afford to be bulldozed by Gompers or by any other man or set of men."

There are orderly ways for contesting the legality of laws passed by Congress, but when any man, it matters not what may be his position in the business or the labor world, pointblank says to Congress that if it passes a certain law he will not hesitate to break it, Congress must meet the issue as to whether it will be brow-beaten by such a revolutionary speech, or whether it will rise to the emergency and see that any law which is passed is enforced.

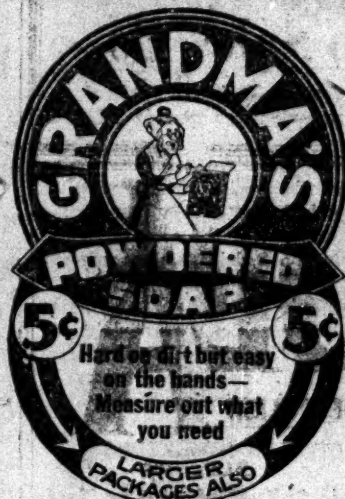

If some inconsequential individual who had no influence with other men had made such a statement as that of Gompers it might be ignored as they rapid mouthing of irresponsibility. But Gompers stands before the country as the leader of some millions of men who believe in

his advice. When he makes such a statement as this he is, therefore, a revolutionist, and backs his revolutionary statement with whatever influence he has with the labor men of the country.

"We do not believe that Gompers can control the labor men to such an

extent as to make a large proportion of them follow a revolutionist. But we must know the whole situation in time to save this Government from the power of the revolutionary crowd which now seeks, as Trotsky said when he started for Russia to destroy the dirty and

rotten Government of the United States. That is the definite program of a large proportion of the men who are urging on strikes and of many of the un-American element among the strikers."

MARTIAL LAW IN GARY

4,000 World War Heroes Prevent Outbreaks in Great Steel District

Chicago, Oct. 8.—Officers of the intelligence department of the United States army seized more than a ton of "radical" literature and a quantity of arms and ammunition in raids on the steel city of Gary yesterday, while 4,000 regulars, veterans of the world war were enforcing martial law.

The Federal troops were equipped with machine guns and field pieces mounted on motor trucks and fast cars, trench mortars, hand grenades and rifles.

When martial law became effective at 9:30 yesterday morning Col. W. S. Mapes, commanding the Federal troops, announced that anyone arrested thereafter would be subject to trial by court martial and amenable to imprisonment in the Federal Penitentiary at Leavenworth. The presence of the Federal troops quieted the rioters and no arrests were made.

Indiana State troops were still on duty last night at Indiana Harbor and East Chicago, Ind., where the plants of the Inland Steel Company are located, but they are expected to be relieved by Federal troops today.

While parades and meetings of strikers were banned in Gary, because of martial law, 10,000 strikers paraded yesterday at East Chicago. There were no disorder.

A Woman's Hearty Recommendation

Worry and overwork cause kidney trouble, and women suffer equally with men. Miss Sara Weston, Belvidere, Ill., writes: "I could not stoop down and when I was down I had to crawl up by a chair, I was so lame. I suffered agony. They relieve dizziness, puffiness under the eyes, sore muscles and joints and rheumatic pains when caused by disordered kidneys. Sold everywhere.

LYNCH CONVICTED NEGRO

Take Prisoner From Sheriff—Coroner's Jury Fails to Fix Blame

Macon, Ga., Oct. 8.—Eugene Hamilton, a negro under 10 year sentence for an attempt upon the life of Charles Tingle, Jasper county farmer, was taken from Sheriff Middlebrooks, of Jones county, near here early yesterday and shot to death at daylight, near Monticello, in Jasper county. A mob of about 60 men held up the sheriff of Jones county, who was trying to bring Hamilton to Macon for safekeeping, having heard of plans to take the negro from Gary, where he had been sent by the Jasper county sheriff.

Tingle was not seriously wounded, but friends of his had made repeated threats that they would "get" Hamilton, whose motion for a new trial was recently denied, and was appealed to the Georgia court of appeals.

A coroner's jury investigated the killing of Hamilton and returned a verdict of "death from gunshot wounds at the hands of parties unknown to the jury."

"Nuxated Iron Put Added Power Behind My Punch"

Says Jack Dempsey—Tiger Of The Ring Heavyweight Champion of the World Tells A Secret of the Training Which Helped Get Him Into Such Superb Condition That He Was Able to Whip the Mighty Jess Willard and Prove Himself

THE SUPERMAN OF THE AGE

Jack Kearns, Manager for Dempsey, Jimmy DeForest, Chief Trainer, and Others Give Opinions—How Nuxated Iron Helps Strengthen the Nerves, Restore Wasted Stamina and Build BLOOD, STRENGTH and ENDURANCE.

Since his overwhelming victory at Toledo when he retained the World's Championship title from the Goliath-like Jess Willard, Jack Dempsey, the modern David and Goliath Man of the Ring World—Jack Kearns, his manager, and Jimmy DeForest, his Chief Trainer, have been besieged with inquiries as to the methods employed in training him to such superb condition. That Jack Dempsey used Nuxated Iron as a part of the training which produced such marvelous physical development as to make him a veritable human dynamo, should prove conclusively the paramount value he attached to this master strength and blood builder and he explains below why he now recommends it to others.

Just as when a man's life is at stake, physicians seek only the tried and proven treatment, so when the World's Championship hung in the balance, Dempsey's trainers did not stop to experiment with untried iron preparations—Nux and Iron—or other products of questionable value, but they insisted upon having only genuine Nuxated Iron, which they felt could be absolutely relied upon to help build red blood, power and stamina.

In connection with this feature of his training regarding which Dempsey himself makes a statement below, Jimmy DeForest, the Champion's Chief Trainer, is quoted as saying: "For seven weeks previous to July 4th I was in sole charge of the training and preparation of Jack Dempsey for his fight with Jess Willard. During the training period Dempsey was regularly given by me Nuxated Iron and I believe it contributed to his success."

The importance that the Champion himself places upon the part Nuxated Iron played in winning for him the highest laurels known in the athletic world is clearly shown in the following statement made by Jack Dempsey at his training quarters in Toledo, the scene of the big battle, when he said: "After commencing the use of Nuxated Iron during my training for the big fight with Jess Willard, I soon noticed that I could stand harder strains with less fatigue than before, and I realized that I had found a tonic and blood builder which played an important part in getting me into fine condition. Formerly I had relied solely upon strength-building foods and outdoor exercise to keep my blood rich in red corpuscles, but with the World's Championship at stake, I felt that I should have nothing undone that might help me to

win. I was advised of the great value of Nuxated Iron for building up the blood, strengthening the nerves and aiding in keeping the body fit, and I am firmly convinced that its use has helped to wonderfully increase my stamina and endurance. Nuxated Iron put added power behind my punch, helped me to accomplish what I did at Toledo. From the results in my own case, where the possession of super endurance is necessary, I feel that I am in a position to strongly recommend Nuxated Iron to every man and woman who wants to build greater strength, energy and power."

In connection with the foregoing statement made by Jack Dempsey, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, said: "In my opinion whoever made the suggestion that Nuxated Iron should play a part in getting Dempsey into condition is to be commended for his foresight. No man without plenty of rich, red blood filled with health-giving and strength-building iron could withstand the terrific onslaught of a giant like Willard. It should occur to

Manager Jack Kearns who closely watched from day to day the progress of Dempsey's training in which Nuxated Iron played a part and who predicted Dempsey's victory over Willard.

every thinking person that if a man as physically fit as Dempsey should consider it advisable to take Nuxated Iron, how much more important it is for the average man or woman to see that there is no lack of iron in the blood. To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron.

Remember that Nuxated Iron which has been used by Jack Dempsey and which is distributed and recommended by physicians is a secret remedy because which is well known to druggists everywhere. It is made from pure iron and is not a cheap imitation and does not injure the body, make them sick or upset the stomach. The manufacturer guarantees each bottle and assures satisfactory results to every purchaser or they will refund your money. It is supposed to be the best thing.

TWO CHILDREN POISONED

Michigan Woman Charged With Feeding Corrosive Sublimite to Little Daughters.

Pontiac, Mich., Oct. 8.—Mrs. Hazel Loukait, of Rayol Oak, is in jail here on a charge of having fed corrosive sublimite to her little daughters, Edna, six, and Shirley, eight. The two children are in a Detroit hospital, where they are reported to be in a dying condition.

The mother was reported Monday night to have made a confession to Prosecutor Gillespie, but thus far she has made no statement as to the motive for the act.

She was hysterical when taken this afternoon from her home, and when she arrived at the jail could say nothing other than "I am not afraid." Later she talked to Gillespie and several officers, according to their statement declaring she gave her little girls four slow-acting, poison tablets each and afterward fed them others in capsules. This took place a week ago, and the children have been slowly failing ever since.

NATION WILL BE MASTER

London, Oct. 8.—Proof that Great Britain is a really democratic country was furnished by the recent railway strike episode, Premier Lloyd George declared in an address yesterday. Speaking at the Mansion House at a reception to Field Marshal Allenby, the conqueror of Palestine, who was given the freedom of the city, the Premier said:

"Prussianism in the industrial and economic world must not prevail. Great Britain has once more rendered a deep and lasting service to real freedom by defeating an effort to hold up the community and strangle it into submission. The nation means to be strong, firm and just, but always master."

The man caught on the end of the pier, was taken off by a tug, the master of which risked destruction of his craft by coming alongside the burning pier. Several small schooners were damaged. A series of explosions shattered windows in houses several miles from the plant. The origin of the fire has not been determined.

FACED BY BANKRUPTCY

Food Gets Scarcer and Fuel is Almost Gone in Austria

The Austrian Government continues to issue its declarations that national bankruptcy in Austria will be avoided, but it is nevertheless discussed freely as an impending event. The Austrian crown is practically worthless outside the country, and its purchasing value in Austria has declined at such a rate that the problem of purchasing food seems insoluble on the present basis of exchange.

The Government announces that despite various protests it will sell the Government art treasures, including the famous Gobelin and Flemish tapestries from the royal castles, which are now being listed and appraised. These are the only assets available outside of the food credits.

The fuel situation again is so acute that the Government has limited the running of street cars to two hours on weekday mornings, and there is a rigid enforcement of the 8 o'clock restaurant and 9 o'clock cafe and theatre closings. The restaurants, cafes and theatres up to the present have been kept open with the use of carbide lamps, but carbide now must be conserved owing to the possible total failure to give gas and electricity.

The weather is chilly and there is

a growing scarcity of food. Increased prices are adding to the depression and unrest of the people. The deputy workmen's councilor Frank Mueller, admits that the reactionary feeling daily is growing.

CAR WORKERS BLAMED

Cost of Labor Has Raised Fares, Asserts Railway President

Atlantic City, N. J., Oct. 8.—Blame for the increase in street railway fares throughout the country was laid at the door of the wage-earners and not to the demands of capital by J. H. Pardo, president of the American Electrical Railway Association, in his address yesterday to the Association here.

Necessity for providing revenues

to meet the increased demands of the workers and not the desire of the railways to increase their returns has caused the general raising of fares, Pardo declared. Cost is the main question in the railway industry today, he said, and the cost of labor is the predominant factor in that cost.

The public must realize, Pardo asserted, that the question of wages between capital and labor is of vital interest to everyone and is not confined to the two classes.

HEARS VOICE OF DEAD SON

Conan Doyle Describes Seance And Conversation With Boy Dead For a Year

London, Oct. 8.—Sir Arthur Conan Doyle, the famous author and latterly one of the chief exponents of spiritualism, described Sunday night how he heard the voice of his son, who has been dead for a year. He said: "I was in a darkened room with five men, my wife and an amateur medium. The medium was bound in six places with a string. My wife gave a cry. Then I heard my son's voice. He said: 'Father!' 'I answered, 'Yes, my son.' He said 'Forgive me. I knew to what he referred. We had only one difference in all his lifetime—his unbelief in spiritualism. I reassured him. He said: 'I am so happy.' 'Then his voice faded. 'I state definitely that I spoke to my son and heard his voice. I would be the most blasphemous liar if what I have told you is not true.'"

"Over the Garden Wall" just sizes with romances

The screens of the world have introduced "Smiling Bill" Parsons to picture lovers and he has been taken to their hearts. His credentials are his smile, his infectious funmaking and his imitable personality. The portly comedian in "Bill's Predicament," will be seen with the above at the Richmond Theatre tonight.

INGOMAR THEATRE

"Man's Desire," at the Ingomar Theatre tonight with Lewis S. Stone in the leading role, is a drama of the big woods lumber country, packed with tense action and the thrill of primitive life. The play moves rapidly, the action has punch and smash in every foot of film, while the primitive characters and big timber scenes are graphically portrayed. Jane Novak plays opposite Stone in a role that fits her admirably in its pathetic appeal.

GRAND THEATRE
Geraldine Farrar's great Paramount starring vehicle, "Maria Rosa," in which Wallace Reid is her leading man, has scored a tremendous hit at the Grand Theatre tonight. It is a dramatic picture which affords the star ample opportunities for effective work. The supporting company is excellent. Also, 10th Chapter "Elmo the Mighty."

THEATRES

RICHMOND THEATRE

Vitaphone's latest picture, with Bessie Love in the stellar role, has been called the picture with love in every line. It is "Over the Garden Wall," which will be shown at the Richmond Theatre tonight. "Over the Garden Wall" positively reeks with love. One love affair is enough for most films and sometimes a second one is thrown in for good measure, but in this story there are precisely four all interlaced and interwoven into one smashing theme.

AN ALEXANDRIA MAN'S EXPERIENCE

Can you doubt the evidence of this Alexandria citizen? You can verify Alexandria endorsement. Read this: J. M. Treaskle, oyster dealer, 601 South St. Asaph Street, Alexandria, says: "My back was in such bad shape I could hardly get up after sitting down awhile. I do a lot of fishing and sometimes the pains have caught me so I would have to call for help. I can hardly describe the terrible misery I was in. I had headaches that would almost drive me crazy. When Doan's Kidney Pills were recommended, I got some at the Creighton Drug Store. Doan's did wonders for me. They took all the misery out of my back and now I can go around and do any kind of work. Since Doan's Kidney Pills cured me I have never felt weak and lame like I used to." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Treaskle had. Foster-McBarn Co., Mfgs., Buffalo, N. Y.

Indecision is our besetting sin. To it may be traced practically all of the disappointments visited upon us. Don't wait, brother. Pick out your man and "go get him."

To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.
